Eighteen Per Cent Increase in the Tonopah Underground Forces Today

and today to break the ranks of States. riking switchmen, as reported by

E, April 24.—Now that the is over and Venire has recovd from the nightmare of having wealth of art destroyed by shell or worse still, looted by soldiers by one her treasures from un rground cellars or distant galler are being returned to their

One of her most admired posses ions however. Titians "Assumption the Virgin", which is counted ong the seven great masterplecus the world, the pride of the mering Academy of Pine Arts, has een ret rned, not to the gallery but its are feat home in the choof the beautiful Church of the Francisco or which it was painted by Titian

Consolidated Spanish Belt reports progesa for the week ending April 20th as follows:

in the San Pedro the east face was sivanced four feet making the total distance from shaft now 430 feet. Not much work was done here as the men were used for other pur poses Work continues in the raises. We have started a new raise east of No. 4. A 314 foot sample of milling ite in No. 4 ran \$44.30. Grab samples from cars of milling ore ran 14520. Sacked ore ran \$185.60.

Mill ore from the Barcelona ore oly ran \$18.80 and the sacked ore ran 1434 or which 1.2 ounces was mid We did some work in the old Ernst drift and in the cleaning up tricess obtained some shipping ore running \$140.10. The mill ore was rammed to the main dump.

MAMMOTH FOUND IN NEW MEXICO

(By Associated Press) ALBUQUERQUE, (N. M.), April 24 The tooth of a mammoth, an animal of a species that, according to Frof Hobert W. Ellis of the Univergravel joi on the outskirts of Albu mout today by 25 to 0 merque the other day. The mamwith Prof Ellie said, belonged to he elephas primigenius, or elephant family. It was at maturity from 10 li feet in height and had tusks but larger than the elephant. The less part or surface of the touth bind here is about four inches wide vitt inches long and about seven tit a half inches high.
